ab.=Abstention
cf=Cumulative Frequency

1. was my teacher

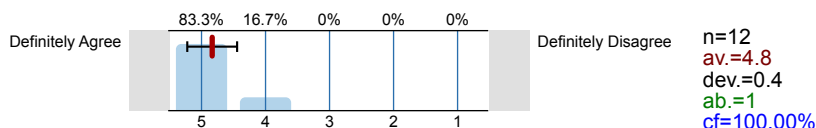

1.1)

1.2) The teacher communicated ideas and concepts effectively.

1.3) The feedback I received from this teacher has helped my learning and performance (select N/A if another teacher was responsible for providing you with feedback for this course)

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

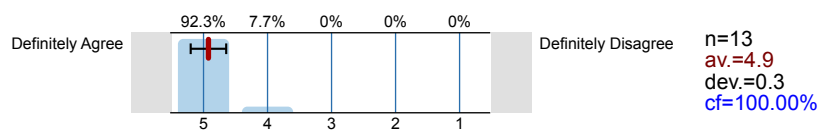

- Always very patient with any questions students may have, also willing to answer any questions after the class. I also appreciate the slides created by this teacher, ideas conveyed clearly, very useful materials for revision. Key insights of PS explained in class in a clear way with reference to real life example. I really enjoyed the classes, thank you for your effort!
- Amazing TA - only went there once, but Arnaud is extremely good. I like his slides a lot.
- Extremely good at giving context and intuition. Also, the best teacher I had this year when it came to responding to students' questions. Without a doubt, Arnaud understands what students need and has found, in my opinion, the optimal concept of class teaching. On top of that, he is always willing to respond and help with questions beyond the coursework. 10/10 would recommend ;)
- Good slides
- Great teacher. Really liked the links to papers and current literature he does while going through the problem set.
- Takes time during office hours to help with lectures and assignments.
- Very calm, very capable, very clear slides and nice way of teaching, always helpful also beyond the scope of the course !! Best TA I've ever had
- Well structured, highly organized, motivated, explains well, connects content to current research, one of the best class teachers I have had

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- Although key insights were explained, I would really appreciate it if all of those points were also included in the slides. Because I may not get the insights the first time they're explained, and if not included in the slides, I may miss those in revision.
- Could go a bit faster on the simple exercises to cover everything in class
Unrelated to Arnaud, applies to general LSE class structure: The classes just provide solutions to the exercises, which is somewhat redundant since I can also just look at the solutions to the exercises

- Honestly, nothing.
- L
- Sometimes because using the slides you get more easily lost

1.6) Overall, I am satisfied with the teaching by this teacher on the course.

1.4) Please comment on aspects of this teacher's teaching you think were particularly good.

- An amazing teacher. Had an easy time sifting through the material very helpful and goes painstakingly over details.

1.5) Please comment on aspects of this teacher's teaching you think could be improved.

- Nothing from my observations.

1.6) Overall, I am satisfied with the teaching by this teacher on the course.
